# MEDWOODplus

20 Years of Creation - 10 Editions - A New Era Begins

In 2026, **MEDWOOD** celebrates its 20th anniversary and welcomes its 10th edition—more mature, dynamic and expansive than ever before. Since its inaugural event in 2006, it has evolved and become a benchmark for the wider Balkan region and South East Europe, uniting the worlds of timber and industry with those of design and architecture.

Today, **MEDWOOD** opens a new chapter. It reinvents and re introduces itself. **MEDWOODplus** is now a reality and, under the banner “More than Wood”, marks the strategic broadening of the exhibition. It reflects the market’s evolving needs and contemporary material trends, extending its product categories beyond timber—while timber remains at the heart of the event.

The addition of the **new +Surfaces category** enriches the content and widens the exhibition’s scope: advanced surfacing materials, finishing technologies and innovative applications that speak to aesthetics, functionality and sustainability.

## MEDWOODplus means:

A networking platform  
for professionals,  
companies & creatives

An exhibition shaped  
by the market, building lasting  
trust with exhibitors & visitors

A focused environment  
showcasing  
innovation & quality

{3}

# why exhibit?

- **20 Years of Trust & Growth**

A proven event that grows alongside the market and its people.

- **The Sector's Premier Showcase**

Exclusively dedicated to materials, technologies and solutions for timber, construction, surfacing and design.

- **MEDWOODplus = New Possibilities**

With +Surfaces, the exhibition powerfully expands into surfacing, materials and innovative applications.

- **A Targeted, Influential Audience**

Hundreds of decision makers, architects, contractors and professionals seeking solutions—not simply browsing.

- **Purposeful Business Meetings**

Direct connections with potential partners, clients and projects ready to be realised.

- **A Platform for International Reach**

The ideal stage for product launches, new collections and boosting brand recognition locally and abroad.

- **A State of the Art Venue**

Metropolitan Expo delivers full infrastructure, exhibitor comfort and easy access for visitors.

**Be part of the change.**

**Secure your place at MEDWOODplus.**

**Share what you create—with those who seek it.**

# {4} exhibitors & products

Medwood Plus is not just an event. It's a living community. A gathering place for those shaping the future of construction, timber, surfacing and design. Explore all exhibit categories and products.

# exhibition centre

It is located at the end of Attiki Odos towards the Airport, just 2 km after its buildings and a few minutes from the Metro and Suburban Railway station, with which it is connected by regular internal passenger transport (exhibition centre buildings and a few minutes from the Metro and Suburban Railway station, with buses).

It has also easy and quick access for visitors from outside Attica, through the connection of the National Roads with Attiki Odos.

Finally, its location makes it an ideal destination to travel by airplane (distant regions and foreign visitors).

Metropolitan Expo is located at "Athens International Airport Eleftherios Venizelos" and is an important hub in Greece, with high quality services and infrastructure.

Easy access with a range of transport options from the underground railway system (Metro), buses, airplanes and cars.
